

2016 Proceedings

Long Beach, CA

- [Forty Years of PT Construction, Asit Baxi](#)
- [TENDON – New Educational Free Software for Post-Tensioned Structures, Fabio Albino de Souza](#)
- [Post-Tensioning – Codes vs. Practices; A Need for Trained Engineering Professionals, Sivakumar Munuswamy](#)
- [Corrosion Mitigation Using Impregnation on Bonded PT, Garth Falls](#)
- [Structural Strengthening Using External PT, Michelle Haughey](#)
- [Innovative Evaluation of Paper-Wrapped Post-Tensioning, Liao Haixue](#)
- [Considerations in Designing Post-Tensioning Repairs, Tracy Naso](#)
- [Project Update on the Hebron Gravity-Based Structure, Drew Micklus](#)
- [Innovated Post-Tensioning Solutions for State-of-the-Art Projects, Yosbany Ballate](#)
- [Slab-on-Ground Conversion to Suspended Foundation, Don Illingworth](#)
- [Anchorage Zone Reinforcement: How Important and Whose Responsibility is it?, Edgar Zuniga](#)
- [Advancing Anchorage Performance Technology, Thomas Mathews](#)
- [Shear Nonsense: A Critique of the ACI Code Shear Design Procedure for Post-Tensioned Beams, Dirk Bondy](#)
- [Recentering Post-Tensioned Concrete Walls for Enhanced Seismic Resilience, Leo Panlan](#)

- [Key Aspects of 2-D and 3-D Finite Element Solutions for Serviceability and Strength Requirements of Post-Tensioned Beams and Slabs, Spencer Lee](#)
- [Post-Tensioned Concrete in U.S. Buildings, Ken Bondy](#)
- [Gerald Desmond Replacement Bridge – Long Beach, CA, Ken Black](#)
- [Project Updates on the St. Croix and Lesner Segmental Bridge Projects, Ed Underhill](#)
- [Effect of Exposure to Humidity and Temperature on the Fresh Properties of Cementitious Post-Tensioning Grout, Trey Hamilton](#)
- [Sulfate Limits for Corrosion of Steel Strand in Deficient Grout, Krishna Vigneshwaran Konda Krishnamurthy](#)
- [Current State of the Art in the Design and Construction of the Complex Interchange Projects Using Spliced Precast Girders, Gregg Reese](#)
- [Experiences and Reflections on EIT Post-Tensioning, Tommaso Ciccone](#)
- [FHWA DTFH611D00048 – Task 5009; Development of FHWA Guidance for Monitorable Replaceable and Assessable PT Tendons, Trey Hamilton, Antonio Ledesma, & Ian Hubbard](#)
- [32 Years of PTI's Development of Recommendations for Cable-Stayed Bridges, David Goodyear](#)
- [PTI Certification Programs – A Reflection, Larry Krauser](#)
- [PTI Technical Committees: Reflecting on 40 Years as We Plan for the Future, Don Kline](#)
- [The High Cost of \(a Lack of\) Education, Theodore Neff](#)
- [Celebrating 40 Years of Advancing the PT Industry, Bob Sward](#)
